

Titration Application Notes: Title Index

No.	Title
T-1	Chloride in water samples
T-2	Salt content (NaCl) of broth
T-3	Salt content (NaCl) of canned food
T-4	Salt content (NaCl) of meat products
T-5	Chloride in an acidic copper plating bath
T-6	Trace chloride in cement and clinker
T-7	Sulfate in water samples
T-8	Sulfate in brine
T-9	Sulfate in cement
T-10	Anionic surfactants in shower lotions and shampoos
T-11	Anionic surfactants in a nickel plating bath
T-12	Cationic surfactants in hair conditioner
T-13	Cationic surfactant (cetrimid) in an antiseptic disinfectant
T-14	Chlorhexidine in a wash lotion
T-15	Non-ionic surfactants in liquid household cleaners
T-16	Non-ionic surfactants in compact washing powders
T-17	Determination of the ampicillin content
T-18	Determination of the total penicillin content
T-19	Cyanide and silver in a silver plating bath
T-20	Cr(VI) and Cr(III) in chromium baths
T-21	Sn(II) and sulfuric acid in a tin plating bath
T-22	Cyanide in alkaline plating baths for cadmium, copper, lead or zinc
T-23	Hydroxide and carbonate in alkaline plating baths for cadmium, copper, lead or zinc
T-24	Metal contents of alkaline plating baths for cadmium, copper, lead or zinc
T-25	Hydrogen peroxide in aqueous solutions
T-26	Perborate, percarbonate or persulfate in washing powder
T-27	Alkalinity of amine-containing gas washing solutions
T-28	Hydrogen sulfide and mercaptans in petroleum products
T-29	Alkyllead (anti-knock agent) in gasoline
T-30	Ascorbic acid (vitamin C) in fruit juices
T-31	Na ₂ O (free base) and SiO ₂ (silicate) in water glass
T-32	Hydrogen sulfide or sulfide in water
T-33	Lidocaine in ointments
T-34	Hydrofluoric and nitric acid in etching baths
T-35	Tranexamic acid in injection solutions
T-36	Benzylamine hydrochloride in a disinfectant solution
T-37	Nitrogen content of nitrocellulose
T-38	Iron content of iron powder
T-39	Free alkali in sodium hypochlorite
T-40	Determination of the phenylglycine content
T-41	Acid number (TAN) of mineral oils
T-42	Citric and oxalic acid in mixtures
T-43	Bromine index in low-level standards
T-44	Base number (TBN, basic N) of mineral oils
T-45	Acetate, chloride and phosphate in an infusion solution
T-46	Soap content of soap noodles
T-47	Soaps and anionic surfactants in washing powder by potentiometric two-phase titration
T-48	Anionic surfactants in a shower oil by potentiometric two-phase titration
T-49	Cationic surfactants in a household cleaner by potentiometric two-phase titration
T-50	Non-ionic surfactant nonylphenol ethoxylate (8 EO)

No.	Title
T-51	Nickel by photometric titration
T-52	Total water hardness by photometric titration
T-53	Sulfate by photometric titration
T-54	Vitamin C (ascorbic acid) by photometric titration
T-55	Lauryl sulfate by photometric/turbidimetric titration
T-56	Lauryl ether sulfate by photometric/turbidimetric titration
T-57	Calcium in aqueous solutions by photometric titration
T-58	Sum of calcium and magnesium in cement by photometric titration
T-59	Iron in cement by photometric titration
T-60	Aluminum in cement by photometric titration
T-61	Traces of calcium in brine by photometric titration
T-62	Analysis of nitrite solutions
T-63	Citrate in mineral water drinks
T-64	Titanium and iron in mixtures
T-65	Astemizole in raw products
T-66	Calcium in cheese
T-67	Determination of tallow ethoxylates (non-ionic surfactants)
T-68	Determination of coconut oil ethoxylates (non-ionic surfactants)
T-69	Iron and nickel in binary mixtures
T-70	Determination of calcium pantothenate
T-71	Determination of palladium using the «Ionic Surfactant» electrode
T-72	Reducing sugars in wine and sweets
