

Plastics, Photographic Industry

AN Number	Title
N-4	Fluoride, chloride, bromide, nitrate and sulfate in organic substances after Schöniger combustion
O-18	Boric acid and acetic acid in a process water
O-28	Citrate, ascorbate and acetate in photographic developer solution
P-19	Sucrose, glucose and sucralose in low-calorie sweetener
S-63	Phosphate and phosphite in poly(vinylphosphonic acid) using dialysis for sample preparation
S-67	Traces of chloride and sulfate in a developing bath
S-69	Chloride, bromide, sulfate in waste water (photographic industry)
S-70	Trace anions in waste water (photographic industry) using amperometric detection
S-122	Fluoride, glycolate, chloride and oxalate in a latex dispersion
S-130	Six anions in PVC
S-182	Bromide and sulfur oxoanions in photographic developer solutions
S-228	Anions in perfluorocarbon
S-230	Phosphate and sulfate in polymer samples after inline dilution plus inline dialysis
