Declaration regarding Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)

Dear Business Partners,

Metrohm is familiar with the requirements of the Packaging and Packaging Waste Regulation (PPWR) (EU) 2025/40.

We have established internal processes to assess the compliance of our packaging and maintain regular communication with our suppliers to ensure that relevant regulatory requirements are addressed throughout the supply chain. The necessary information is requested from suppliers and evaluated as part of our compliance procedures.

Based on the information currently available to us, we hereby declare, to the best of our knowledge and belief, that the packaging used for our products complies with the applicable requirements of the PPWR as of the date of this declaration.

This statement is based on information provided by our suppliers as well as on our internal assessments and knowledge available on the date of issuance.

Should there be any changes to the legislation, or should additional PPWR requirements become applicable, we will review and update our processes, assessments, and, where necessary, our packaging accordingly. We are committed to implementing any required measures within the applicable timelines to ensure continued compliance. If required, we will inform our business partners about relevant changes as soon as possible.

We hope to have been of service to you and remain with best regards.

Dr. Andrea Wille
