

# The Basics of Titration – A Practical Course for Beginners

August 30 – September 1, 2016  
Metrohm International Headquarters  
Herisau, Switzerland

# You are invited!

The Metrohm Academy is highly pleased to offer you a basic course on the theory and practical use of titration. At the end of this 3-day-course with lots of hands-on training in our laboratories you will ...

- know the basics of titration – technique, instrument setup, parameter settings.
- have good command of **tiamo** titration software – main menu, methods, evaluation & reporting.
- know how to maintain your electrodes and dosing devices.
- know how to automate sample preparation.
- be able to perform troubleshooting on your titration system.
