IONIC app 1.0.1

Release Notes

2026-11-13
8.0513.8401EN

1 Purpose

This document describes new functions, improvements, and fixed bugs in IONIC app version 1.0.1 compared to IONIC app version 1.0.0.

2 Improvements

The following improvements have been implemented:

- WLAN and mobile data can be activated and used in the IONIC app with the **6.06009.029 Function license IONIC enable WLAN and LTE module** license.
- The safety measures for export processes and import processes have been enhanced. Exported objects cannot be imported into a previous IONIC app version.
