6.2323.000  Storage solution
Storage solution for all combined pH glass electrodes with reference electrolyte $c(KCl) = 3$ mol/L

6.2325.000  pHit kit
Maintenance kit for pH electrodes
The kit contains:
- 50 mL cleaning solution
- 50 mL 3M KCl solution
- 50 mL storage solution
- 2 Storage vessels
- Instructions for use

6.2325.100  Cleaning solution 3 x 50 mL
Reliable measuring results over long periods of time can be guaranteed only if the pH glass membrane and the diaphragm receive preventive and regular care. Cleaning by etching with toxic chemicals or applying mechanical treatment to the diaphragm is not only complicated and expensive, it also accelerates the ageing of the pH glass electrode.
The cleaning solution was developed for easy and gentle cleaning of pH glass electrodes. Regular use can considerably prolong their service life.
This cleaning solution is also part of the pHit kit.
