<td>NIRS XDS Monochromator</td>
</tr>
</tbody>
</table>

The result of 50 years experience in the area of spectroscopy was incorporated in the development of this NIRSystems spectrometer. The unique technology improves the signal-noise ratio at high resolution and enhances accuracy and precision. The patented monochromator and the modular design of the measuring module system make NIRSystems instruments indispensable for the spectral measurement of every imaginable sample type in the visible and near-infrared wavelength range (400 - 2,500 nm). The measuring modules can be replaced without difficulty, even during operation. This means that the user profits from the great flexibility in all areas of application.

<th>NIRS XDS SmartProbe Module – 2 m fiber</th>
</tr>
</thead>
</table>

Robust, flexible measurement system for the quality control of solid and liquid substances

The NIRS XDS SmartProbe Analyzer enables rapid, nondestructive analyses of solid and liquid substances and formulations. With the NIRS XDS SmartProbe Analyzer, identity and quality of a substance can be determined directly in the respective original transport containers, no matter whether it be bottles, bags or other containers. The design, which is just as robust as it is ergonomic, makes the NIRS XDS SmartProbe Analyzer the ideal quality control solution in both the warehouse and in the laboratory. Using the NIRS XDS SmartProbe Analyzer could not be easier. For the measurement, the probe is held in the sample and the measurement button is pressed. Pass/fail results can be read off on the handle immediately after the measurement.

The XDS SmartProbe Module is also available with a 3 m fiber length (order number: 2.921.1620)

<table>
<thead>
<tr>
<th>1 pcs</th>
<th>6.7400.000</th>
<th>NIRS XDS accessory kit</th>
</tr>
</thead>
</table>

Accessory kit for NIRS XDS laboratory monochromators

<table>
<thead>
<tr>
<th>1 pcs</th>
<th>6.7430.080</th>
<th>XDS Interchangeable Probe Set</th>
</tr>
</thead>
</table>

The interchangeable probe set consists of a reflection probe, a transflection probe and various spacers, including fixing screws for setting variable path lengths (2 cm, 4 cm, 5 cm, and 10 cm). A protective sleeve for the probes, an Allen wrench, and a sealing ring are also included with the set.

This set is part of the XDS SmartProbe Analyzer and the XDS Interactance Optiprobe Analyzer.
Optional accessories

6.6072.207 Vision Air 2.0 Network Complete

**Vision Air - Universal spectroscopy software.**

Vision Air Network is a modern and simple-to-operate software solution. The network version enables the structuring of a global server-client network with a central database.

Overview of the advantages of Vision Air:

- Individual software applications with adapted user interfaces ensure intuitive and simple operation
- Centralized data and instrument management
- Simple configuration and updating of several devices in just a few steps

The Vision Air Network Complete version (66072207) contains all applications for quality assurance using Vis-NIR spectroscopy:

- Application for a global instrument and data management
- Application for method development
- Application for routine analysis
### 6.6072.208 Vision Air 2.0 Complete

Vision Air - Universal spectroscopy software.

Vision Air Complete is a modern and simple-to-operate software solution for use in a regulated environment.

**Overview of the advantages of Vision Air:**

- Individual software applications with adapted user interfaces ensure intuitive and simple operation
- Simple creation and maintenance of operating procedures
- SQL database for secure and simple data management

The Vision Air Complete version (66072208) includes all applications for quality assurance using Vis-NIR spectroscopy:

- Application for instrument and data management
- Application for method development
- Application for routine analysis

**Additional Vision Air Complete solutions:**

- 66072207 (Vision Air Network Complete)
- 66072209 (Vision Air Pharma Complete)
- 66072210 (Vision Air Pharma Network Complete)

### 6.6072.209 Vision Air 2.0 Pharma Complete

Vision Air - Universal spectroscopy software.

Vision Air Pharma Complete is a modern and simple-to-operate software solution for use in regulated environments.

**Overview of the advantages of Vision Air:**

- Individual software applications with adapted user interfaces ensure intuitive and simple operation
- Simple creation and maintenance of operating procedures
- SQL database for secure and simple data management
- In compliance with all requirements pursuant to Title 21 CFR Part 11

The Vision Air Pharma Complete version (66072209) contains all applications for quality assurance using Vis-NIR spectroscopy:

- Application for instrument and data management
- Application for method development
- Application for routine analysis
6.6072.210  Vision Air 2.0 Pharma Network Complete

Vision Air - Universal spectroscopy software.

Vision Air Pharma Network Complete is a modern and simple-to-operate software solution. The network version enables the setup of a global server-client network with a central database.

Overview of the advantages of Vision Air:

- Individual software applications with adapted user interfaces ensure intuitive and simple operation
- Centralized data and instrument management
- Simple configuration and updating of several instruments in just a few steps
- In compliance with all requirements pursuant to Title 21 CFR Part 11

The Vision Air Pharma Network Complete version (66072210) contains all applications for quality assurance using Vis-NIR spectroscopy:

- Application for a global instrument and data management
- Application for method development
- Application for routine analysis

6.7430.000  NIRS XDS lab spare lamp

Spare lamp with 12 V and 50 W for the monochromator of the NIRS XDS laboratory instruments

6.7430.010  NIRS XDS lab spare parts kit

NIRS XDS lab spare parts kit

6.7430.020  NIRS XDS Monochromator filter, 10 pcs.

Ten NIRS XDS fan filters for the monochromator

6.7430.060  Micro Fiber Cleaning Cloth

Cleaning cloth for monitors and optics.
